SCENARIO DESCRIPTION: As you're walking through an under-street tunnel you encounter three men.

Two of them approach you while the other hangs back. When the two meet you in the tunnel they threaten you with knives and demand your wallet and phone. They mention that their third accomplice is also armed.

As you're complying, a woman enters the tunnel at the far end, sees what's happening and starts to scream.

The third man grabs her violently and moves around the corner.

You use this opportunity to make your move and go and see to her safety.

COF NOTES:

Watch angles as to not damage tunnel walls.

Requires bullet traps.

SAFETY NOTES: Encourage double-plugging to prevent damage to ears from noise in tunnel.
