SCENARIO DESCRIPTION: You quickly stop at an off-street ATM while your wife/partner waits for you in the car. She is suddenly hijacked by four armed men. One of them pull her to the back of the car, holding a knife to her throat, while another gets into the driver seat.

Another, armed with a handgun, waits in front of the car while the other rushes up and corners you in the ATM booth and demands your money, threatening you with a knife.

You fear that they might kill you once they have your money and then drive off with your wife/partner to kill her, or worse.

COF NOTES: The competitor must strike the punch-pad held out by the RO before drawing and engaging the targets.

Any disruption shot of any force and type, and with either hand is acceptable, provided it is distinct and occurs before the draw.

The drums/pillar on the right are the only hard cover available.

N.B. - The competitor does not have to move while engaging the first target (only)

SAFETY NOTES: Watch the 180° rule and muzzle direction, especially when drawing.

Watch for sweeping of alternative hand.
