You don't know how many are in the building, the reason for their attack nor the extent of their plans (bomb, hostages, mass-shooting?) but you hear lots of violent shouting, screaming of co-workers and gunfire, and decide the best course of action is to leave the building as quickly as possible and hopefully assist some of your co-workers.

COF NOTES: Start standing on either side of the passage.

SAFETY NOTES:

Watch 180° rule, and finger while moving.
